### Permission to Share Information

Red Door Early Learning Center is committed to helping all children receive the proper education and services in the most formative years of their life. The partnership with outside agencies and therapy practices plays a crucial role to ensure our school can meet the needs of your child.

As parents, you are an integral part of the team of professionals to ensure your child is achieving his or her maximum learning potential. Communication between all parties is necessary for this plan to come to fruition. Our staff may contact you about your child and learning difficulties he or she is experiencing. You may also already have services in place for your child from an early intervention provider. It is your choice to use any of the providers that push into Red Door to provide services that may be suggested for your child. If you have a different service provider, by signing below you agree to allow your service provider to share all information based on evaluations with Red Door. You are acknowledging that Red Door has the right to refuse the continuation of education if the school feels they can not adequately meet the needs of your child.

I, \_\_\_\_\_ agree to share all information related to IEPs, Early Intervention IEPs, Wrap-Around Service Plans, ABA services or any other intervention service provided to my child that may impact his or her learning outcomes.

If this information does not apply to you, by signing above you are stating you are unaware of any present conditions that may require services for your child.

I, \_\_\_\_\_ agree to allow contracted therapists or any service provider I currently have working with my child to share all information regarding my child with Red Door in order to devise the best possible plan for my child's learning experience.

If this information does not apply to you, by signing above you are stating you acknowledge that at any point if your child would need services, you are willing to share all information with Red Door.

I, \_\_\_\_\_ understand that based on services provided from contracted therapists or any other service provider, Red Door is allowed to refuse services and registration for my child at the school based on the inability to meet my child's needs, or due to safety concerns regarding my child.
